Solution” You've Never Considered Before...And Quite

Best Part: I'm Going To Rush It To You For Free!

Dear Savvy Businessperson:

Before I send you your 4 free gifts worth \$648, I'd like for you to take a little trip with me...

Think about having absolutely no worries in your business. And imagine being in the top 10% of your industry—and having the highest respect of your clients, customers, and peers.

And imagine having the time and financial freedom to go on a vacation guilt-free and spend more time with family and friends.

Or how about enjoying an advantage over your competitors that makes you the “go-to” person in your industry, and having your ideal customers and clients come to you?

Now Think About Your Situation Now:

Now I want you to think about all the difficulties you're going through in your business right now.

Think about how hard it is to get qualified clients and customers to do business with you. And having to deal with "so-so" customers and clients that can give you a headache at times.

And how about the doubts and uncertainty that seem to haunt you on a daily basis? Where you start to ask questions about your ability and future:

- *"Am I going to be in business 1-2 years from now?"*
- *"Will I be able to keep this hectic pace for the next 5-10 years before I burn out?"*
- *"Am I always going to be lying in bed at night...wondering where my next customers and clients are going to come from?"*
- *...And on and on...*

Now think about how much you're shackled to your business right now—where you're close to resigning to the fact that, "This is good as it gets".

Or how much you seem to fall back on blaming the recession for the lack of growth of your business.

Well, I'm here to tell you that:

Your Recent Business Stagnation Or Shrinkage Is Not Your Fault!

Now you may have taken marketing advice from a well-meaning friend or colleague in your industry that told you "how things are done around here" when it comes to bringing qualified customers and clients to your business.

Or you may have gotten caught up in what's called "Shiny Object Syndrome", where you're constantly trying new "tricks" to add to your bottom line.

This includes the latest software, media platforms, and various "tried and true" strategies from a host of marketing consultants and gurus...

...the ones that should have worked, but never did.

Hi, I'm Dave Dee...Chief Marketing Officer at GKIC. I'll tell you more about how an expert named Dan Kennedy turned my business around a little later...

But for now let me tell you why:

What Many Businesspeople Think About The Recession And 'Rough Times' Is Completely Wrong.

Now what I'm going to tell you in this message goes against the grain of what you've probably heard about marketing and advertising your business.

And most people don't agree with what you're about to discover in these 4 FREE gifts I want to rush you today.

You see, it's getting tougher and tougher to get people to pay attention to you. To respond to you. To invite you in. And ultimately, to get out their credit card, checkbook or company purchase order and buy.

You urgently need different and superior strategies and tools to cut through the clutter and competition. You simply have to rise above the other discounters who are slashing their prices in panic if you want to survive.

Now's the time to motivate quality prospects and customers to come to you, choose you, trust you and buy from you—even if they're resisting everyone else.

"Waiting" just won't do. You can't just "wait this out" for things to change. The emerging new economy is going to demand these new and superior strategies permanently.

Dan Kennedy has 35 years worth of experience in the "real world". Where results rule...and marketing dollars can't be wasted on ideas or theory.

He puts his money where his mouth is in all his business and business interests.

And Dan writes copy and creates marketing for clients who put hundreds of thousands of dollars at risk on ads or direct mail upon his approval.

And he has to be right. Otherwise, his "Millionaire Maker" reputation gets tarnished.

If You Don't Believe Me, Here's Proof:

And I promise you that if you follow simple instructions in my 4 free gifts worth \$648 I want to ship to you today, you could experience a boost in profits like these entrepreneurs:

"I've been using all of Dan Kennedy and GKIC-type of marketing and the business has really exploded within the past year. At this point I've been a student of Dan Kennedy's for like 8 months... it hasn't even been that long, but the effects have been huge so far. As soon as I figured out how to actually create an ad and the elements that should go into the ad, it's become almost comical... I'll put the ad, and almost instantly, the exact type of people I'm looking for respond. Last year I grossed about \$40,000. This year with a couple months to go, I'm already at \$90,000! That's all really due to implementing all of Dan's strategies. I have already doubled my business - and I project to hit 2.5 times the revenue of last year!"

- **Kyle Newell**, Founder of Newell Strength www.newellstrength.com

"In the two months that I've been in this program, I really have gotten more done in two months than I probably have in the whole 17 years that I owned my business. I use to follow 25 different great ideas to nowhere...with this I got really focused on one great idea which is to grow the business I already have, and get really clear on the way I was going to do that. I developed a usp, a business model, a marketing system, a website...it's probably a 35 page website, and my very first sales letter. If you're at a point in your business where you're ready to get things done with the structure of this is the best investment I've made in this kind of program ever... I'd do it again in a heartbeat!"

- **Barbara Batt**, President U Creative Group LLC www.ucreativegroup.com

"I started several weeks ago and it's been really helpful for me. One of the big problems that I've had is that I'm so focused on my business, and I really have on one else to give me advice that has an entrepreneurial background. What this program has allowed is to have someone who's been in the trenches knows what it's all about being an entrepreneur and has given me advice. Advice based on their past experience, based on the experience of their clients and other business they've come across. So to try to put a value on that is not even fair. . But it's very rare that we stick to an actual time schedule. It's a very good program."

- **Kenneth Freeman**, Unstoppable Strength LLC www.unstoppablestrength.com

"Getting a marketing system fully implemented over an 8 week period is what we've been working on. For our first piece, we actually used some signs. As soon as we put those signs up, we had walk-in clients. This was just something we never had before. The sign brought in 2 new clients per week for the last 6 weeks. A new client to us is worth \$3,800, so we're in the \$45,000 range for the gross income from just that 1 idea. With \$7,000 going straight to the bottom line. The project was worth \$36,000 to us... and again that goes to our bottom line, from a newsletter. A piece of paper and a 44 cent stamp turned into a \$36,000 job for us. It's not something anyone else in our industry is doing."

- **Walter Bergeron**, Power Control Systems www.powercontrolsystems.com

"Before we got involved with GKIC we ran a generic top-of-the-mind awareness campaign. No consistency, every now and then we'd run something different but nothing really changed. This has been a really cool journey. I was a little scared at first you know...and then I realized what I was going to do with (the materials) and it wasn't going to be hard at all"

- **Denny Dingler**, Professional Hearing Centers www.invernesshearing.com

Now you may think these 5 entrepreneurs have some hidden talent that enabled them to achieve these results. But the fact is they're just like you.

The only difference is what they're doing right now in their business, which are the same strategies you can easily implement when your package containing your 4 FREE gifts worth \$648 arrives at your doorstep. You'll discover how to:

- **Craft an Irresistible Marketing Message** - This is what's going to get your ideal customer or client to "raise their hand" and do business with you. This is the #1 reason why most businesses fail is because their marketing message is too confusing. This leads to the attraction of unqualified customers and clients that could result in problems for your business.
- **Target the Right Customers And Clients** - These entrepreneurs know their target customer and client and how to attract them. This allows them to alleviate a lot of stress and uncertainty in their business, and allows them to experience more freedom and independence.
- **Use Proven Systems Over And Over Again** - This entrepreneurs know how to scale their business so they can get more done in less time. It's the secret McDonalds used to become the biggest restaurant chain in the world: the implementation of systems that can be deployed over and over again.
- **Build a Herd Of Customers** - It's one thing to get a new customer, but it's another thing to retain that customer long-term so they keep buying from you again and again. That's what these entrepreneurs do every day—they know that selling to an existing customer is ten-times easier.

There are a lot of speakers, trainers, and coaches who create audio products and speak on stage about getting more customer and clients.

But the problem is most of these speakers have never ran a business themselves!

You see, Dan Kennedy is not a new kid on the block:

He Has A Solid 35-Year Track Record Of Making Small Business Owners Into Millionaires And Multi-Millionaires

They also wondered how there could be a solution that virtually no guru, business consultant, or marketing firm is taking about?
